11 - FIBREGLASS FLAGSTAFFS LOCKABLE DOOR, INTERNAL HALYARD SYSTEM

E-mail: sales@piggotts.co.uk
Website: www.piggotts.co.uk

Piggotts Internal Halyard System provides a solution to the ever growing problem of vandalism and theft.

Whenever the installation of ground mounted flagstaffs is being planned, consideration should be given to the likelihood of vandalism and theft. Using this system, the possibility of flags and halyards being stolen or vandalised is almost completely eliminated. These flagstaffs and special fittings come as a complete assembly.

NOTE:

When no flag is flying, the weighted sling must be attached to the end of the Halyard Rope. This allows the rope to be lowered when a flag is to be attached.
